# Defender KA74

## Highest demands

The KA74 is the best choice when you have the highest demands with regard to protection of very valuable, fragile or hazardous loads during transportation or storage. The Defender KA74 boxes have withstood various tests for wear, rain and dropping with flying colours.

The KA74 boxes are made of high-quality materials and the boxes are easy to use because of their low weight and the comfortable handles. In terms of logistics, the KA74 boxes are also very practical; with their aluminium corner pieces, they are stackable and the dimensions have been optimized for pallet transport. The KA74 is also available with UN approval mark for the transportation of hazardous materials.

## Technical features

# KA74

### Features:

- Extremely strong construction; absolute top quality
- Can be made to customized dimensions
- Stackable: KA64s with each other, with the KA74 and various other brands
- Waterproof in accordance with class IP54
