Defender KA94

Topmodel

In terms of construction and quality, the KA94 is the absolute top model in the aluminium boxes range. The box is made of thicker plate material, the seams have been welded and the boxes are fully watertight up to the height of the handles. This box will allow you to store and transport your goods with complete confidence. The boxes are fitted with corner pieces on the base and the lid to provide maximum stability during stacking. The box is fitted with extra strong handles and the lid features a document holder.

The KA94 is available in various standard sizes and has been optimized for pallet transport. Customized production possible.
